FAST RACING AT THE BAY.

KINGSTON BEATS THE RECORD IN BACE FOR THREE-YEAR-OLDS. An Outsider Wins the Sapphire Stakes-A Grand Race for the Twin City Handlens -McLanghila Wins Two Races to Gar-rison's One-Large Fields of Horses.

The opening of the fall meeting of the Coney Island Jockey Club yesterday will rank among the great turf events of this remark-ably prosperous racing year. About twelve thousand visitors passed through the gates, and they never found a race course with more beautiful surroundings. A look even at the flowers was worth a visit to the Bay. That Superintendent Clark had the track in spien-did condition for fast time was shown by the fact that the record was besten in the second race, at seven furiongs, by Kingston, with Me-Laughlin in the saddle. Garrison was in the race on Stuyvesant, the favorite. McLaughlin felt that the time had arrived for the tide to turn, and he rode Kingston with all skill and vim. Stuyvesant showed that he had not the speed to cope with Spendtrift's son, who beat him in by three lengths, while Flageoletta snatched second place from Stuyvesant by a head. Kingston ran the race in 1:27%, with 118 pounds up. The best previous record was 1:27%, made by four horses, of which Telie Doe carried the heaviest weight, 106% pounds. The riding of Garrison and McLaughlin was watched with absorbing interest. McLaughin rode in five of the six races, while his rival ocured mounts in all of them, winning one race only. McLaughlin won two races, the last on Joe Cotton in the Welter Stakes. It was Joe's first race of the year. The scores of the rival jockeys now stand-Garrison, 70: Mc-

Capt. Sam Brown was among the spectators at the races. He was the picture of health and good humor. He denied the reports that he had charged Garrison with pulling his horses, and said reporters had misrepresented him.

All unprejudiced racegoers who have watched diarrison's riding this season can testify that he was out for fame every time.

The event of the day was the Twin City Handicap, at a mile and a quarter, in which fourteen race horses were engaged. Elkwood, winner of the Morrissey Stakes at Saratoga last Saturday, was the Javorite on the slates and in the auction pools. The backers of Elkwood looked glum when they saw Saxony take the lead in the run past the stand at a quarter of a mile. Jollowed by Rupert, Florence M., and Lady Primrose, with the lavorite way brek in the ruck. Saxony continued in the lead along the backstretch and round the far lower turn. But a change came at the head of the homestretch, when Saxony, Lady Primrose, Estrella, Elkwood, and Favor came dashing toward the stand, only a neck apart as named. It was a great race all the way to the stand, Fluspatrick landing Elkwood winner a head in front of Saxony in 2:08. Mutuals paid \$50.15.

Sixteen two-year-olds were sent to the post to start for the Sapphire Stakes. Mr. Caldwell sent them away promptly in so close a bunch that no light was seen between them as they dashed along the backstretch from the quarter post. The Lyon was the first to get his shoulders clear in the lead, half a furiong from the start. Geraldine passed The Lyon in the next half furiong, Kelly getting her clear on the run past the Dwyers' stables, and half way round the turn to the homestretch, where she had a lead of two lengths. The Czar and George Oyster began to close on Geraldine at the head of the stretch, and McLaughlin appeared like coming out of the ruck on Prospect, but he falled in the attempt. Geraldine kild her in the start, but pulled kingston, with McLaughlin broke out from the close bunch at the start, but pulled kingston on light, Kingston, Armstr Capt. Sam Brown was among the spectators at the races. He was the picture of health and

Flageoletta winning it by a neck. Mutuals said \$24.16.

Ten appeared for the spin of five furiongs. Britannic was firs away, Little Minch, the favorite, passing him like a flash in the first furiong, while Sea Fog was left at the post. Little Minch opened a gap of daylight on the turn to the homestretch, Lewis sending him in a safe winner by two lengths in the fast time of 1:01%. Mutuals paid \$12:40.

Seventeen horses faced the starter in the fifth race, a sweepstakes of a mile, for which Feari Jennings was the favorite, and Garrison's Eolian second choice. The Snapper displayed his finest skill in this race. Lightweight Anderson was riding the fast mare Florence E. like a winner at the finish, when the mare swerved across the track, fouling Jennie B. ridden by Lightweight Rificahine. Garrison came like a flash on the outside, clutching the race by a head from Florence E. in the fast time of 1:40%. Florence E. was disqualified it fouling. If Anderson had ridden the mare properly, he might have beaten Garrison and ferfooling. If Anderson had ridden the mare properly, he might have beaten Garrison and the record. Mutuals paid \$17.45.

The Weiter Stakes wound up the sport, McLaughlin scoring the second win of the day for the Dwyers and himself by sending Joe Cotton in winner a length in front of the Hon. W. L. Scott's filly Pomona. It was Joe's first race this year. He ran the mile and three-sixteenths on the grass course in 2:06%. Mutuals paid \$8.55.

GRAND CIRCUIT TROTTING.

Three Exciting Events on the Charter Oak Track-The Favorites Beaton. HARTFORD, Sept. 1 .- The third day of the grand circuit meeting at Charter Oak Park was marked by perfect weather, a crowd of fully 7,000 persons, and three exceptionally good events. In the 2:27 class Greylight was the

favorite, but Jessie showed remarkable speed and won in straight heats.

In the free-for-all Bpofford was a strong favorite, even after Kitefoot had one heat and J. Q. two. Spofford took the fourth heat, but J. Q. two. Spofford took the fourth heat, but J. Q. captured the fifth. Spofford being driven to a break at the three-quarter, J. Q. made the last half of the second mile in 1:06%, and the last quarter in 32½ seconds, or a 2:10 gait.

In the 2:33 class there was a field of eleven horses, and all stayed in to the finish, and made the most exciting spectacle ever seen on this track. Skylight Filot sold favorite in the pools, but every horse sold for some money, and there was a large amount of money on the result.

During the afternoon Madame Marontette drove her runners a mile in 1:47%, and Major Dickinson's pair, Flora Haff and Cora Bell, were sent an exhibition mile in 2:21%. The following are the summaries:

Dernour, Sept. 1.—One of the most novel contests ever seen in Detroit was witnessed at Recreation Park to day by upward of 12,000 apectators, the occasion being the celebration seed. The programme embraced a base ball game for the championship of the United States, between nines of Chicagos wave brought over by the years of say. The Chicagos wave brought over by the Journal, which paid all the bills, and gave the winning club 500 in gold. Detroit won, 14 to 13. The Journal was bought three months since by W. H. Brearley, prominent here for many years in journalism, and was to-day enlarged to meet the wants of advertisers to a thirty-two-column folio. It also secured to-day an invention for hastening the issue of extra base ball editions, and put the Journal of the Substant on the streets not day thirty seconds after the close of the game with a full report of the game.

A Field Day at Williams Grove - 45,000 Persons on the Grounds. WILLIAMS GROVE, Pa., Sept. 1.—Thursday has been the field day of the Granger pionic in former years, and the statistics of the railroad and gatemen show a larger attendance to-day than has ever been known before in the history of the grove. A farmer who lives out on the York road said that he was awakened before 3 o'clock this morning by the rumble of the passing vehicles, and after that he did not get a moment's sleep, the procession being continu-ous and unprecedented. About 15,000 came in from the surrounding country in this manner before noon. Every barn within two miles of the grove is occupied, and every tree standing in the fields has one or more teams tied under it, while the meadows in the immediate vicin-

in the heids has one or more teams tied under it, while the meadows in the immediate vicinity are full of buggies and carryalls. The reports of the Cumberland Valley road for the day show that over 20,000 came in by rail, making a total of about 45,000 persons. Inside the gates the crowd was so great that one could hardly get through. Outside the avenues, in the open spaces beneath the trees, the press was equally great.

The proceedings were enlivened by the music of five bands from Carliale, Mechanicsburg, Harrisburg, and Hummelstown, which paraded the grounds and played in the avenues, always with a crowd of admirers, who never forgot to appland at the end of each piece.

Both meetings at the auditorium were crowded. The first speaker was Col. V. E. Piolett, Chairman of the Executive Committee and a veteran Granger, who said:

This organization is destined to go forward. The women have as much interest as the men in its success, and on this account its bound to go ahead. The women should also have a vote in the enactment of the laws which govern the agriculturists.

All seeds should be tested before sowing. A change of
seed is also often desirable, as he insects that infest one
variety do not another. The practice of dealers in putting new names to old seeds should be stopped.

Mr. Caleb Brinton, a Chester county Granger,
declared most emphatically for free trade as
the only effectual way to relieve the farmer.

"They sell in the world's markets," he said;
and should be allowed to nurchase in them.
In the afternoon Mr. D. H. Thing, Past Master and present Lecturer of the Maine State

State: the Hon. Mr. Kauffman, member of the
Legislature from Lancaster county, in a tenminutes speech, advocated purity in politics;
Mr. W. A. Armstrong, Mastor of the New York

Grangers should be independent in their politics; and the Hon. Gerard O. Brown, Lecturer
of the Pennsylvania State Grangers of Pennsylvania had done in legislative lines.

The Auniversary of the Earthquake in CHARLESTON, Sept. 1.—There is general rejoicing in Charleston to-day. The weather is bright and
bracing, and the city seems as though a great weight
had been lifted from it. The anniversary of the earthquake passed off without a single shake. Very few
people in the city slept last night. The shock on the 27th
and several shocks afterward looked very much as
though there was to be a repetition of the disaster of
Aug. 31, 1884. Most of the negroes spent the night in the
churches or in open-air religious meetings. Very few
whites went to bed at all most of them sitting up the
entire night. Charleston is now entirely rebuilt, over
\$4.00.000 having been expended in building in twelva
months, and a cheerful feeling now prevails. The proptots of the crops are splendid, and everything indicates
a big business boom. CHARLESTON, Sept. 1 .- There is general re-

Attempt to Wreck a Train.

PEKIN, Ill., Sept. 1.—A bold attempt was made last evening to wreck the Indiana. Bloomington and Western east-bound passenger train that left Pekin at 8 o'clock, at Leelie station. The east and west bound paso'clock, at Leelie station. The east and west bound pas-senger trains are due here at 8 o'clock, and pass at this point. The west-bound train passed Leelie all right. It was between this time and 8:15 that some person or persons carried a large stone, weighing 200 pounds, twenty-five feet from the north of the switch track and placed it between the rails of the main track. The east-bound train left here, and very fortunately had a pas-senger for Leelie station. The engines truck the large stone, and the forward trucks left the track. The train was delayed nearly as hour. Had it not been for this passenger there would have been a smashup, as the train would have dashed into the obstruction at full speed. It is supposed robbers committed the crime.

He receives a salary of \$5,000 per annum, and its Fish Commission establishment remus and cocquies one of Major Ferguson's houses on Highland place, next to Justice Miller's mannion.

In a Terrible Hurricane. New Bedpord, Sept. 1.—Capt. Rich of the schooner Agate of Provincetown, which arrived here to-day from an Atlantic Ocean whaling voyage, reports the hurricane of the 20th ult. as the worst he ever ex-

the hurricans of the 20th uit, as the worst he ever experienced. He cut away the mainmast to save the vessel. The bulwarks were stove, the galley was wrecked, the ralls were split, boats washed away, and everything movable was swept from the deck. One of the seamen was washed overboard, but he was rescued. The main boom was put up for a foremast and the vessel was worked into port in this way. Capt. Rich reports running before the gale with the schooner Mary G. Carrier, Capt. Dyer, of Provincetown, for two hours on the 20th. Then the rain set in and the other schooner was not seen again. It is feared that she was lost.

Strange Fatality in Bob Conison's Family. SAVANNAH, Ga., Sept. 1.-The house of Bob Coalson, four miles from Valdora, was burned last night, and a child of his, 10 years old, perished in the flames. Bob and the rest of his family had gone off to a festival, Bob and the rest of his rammy had gone on to a teatran, and they left the child asleep in the house. Bob suspected a former wife of burning the bouse and had her arrested, but as no evidence could be brought against each the was released. About four years ago a small child of Bob's fell into a fire and was burned to death. One year later his house was burned and twin infants perished in the flames, and about two years ago another infant was amothered to death in bed.

No Hall for Mitchell and Kitrain.

RED BANK, Sept. 1. - Mitchell and Kilrain were billed to spar in an athletic entertainment here to night. A PRIEE FOR THE GIANT YACETS. A Race to Include All but the Thistle Arranged for Sept. 10.

Members of the Larchmont Yacht Club have subscribed for a \$1,000 cup to be sailed for by the giant single stickers, including the cutter Galatea, on Saturday, Sept. 10, over a triangular course of forty miles in the Sound. The Volunteer, Mayflower, Galatea, Atlantic, and Priscilla have been entered for this race. The Puritan may also be in. The club will offer a \$500 prize to yachts of the second class, which will simultaneously sail over the same course. The Shamrock, Titania, Bedouin, Huron, Stranger, Hildesail over the same course. The Shamrock, Titania, Bedouin, Huron, Stranger, Hildegarde, and Thetis will engage in a contest that may prove nearly as interesting as the battle of the big ones.

In the regular fail regatta of the Larchmont Club to-morrow the Shamrock and Titania will meet again for the first time since they failed to fight out their duel in the open sea off New Jersey. The other yachts entered in the class with the Shamrock and Titania are the Gracie, Fanny, and Huron.

The Thiatle remained at anchor off Tompkinsville all day yesterday, while about half of her crew were enjoying themselves at the games of the Caledonian Club in Jones's Wood. Capt. Barr says he probably will not go out again until Saturday.

The steam yacht Mohican, owned by the Clarks, the thread manufacturers and chief owners of the Thistie, arrived from Glasgow last evening, and anchored just astern of the Thistie. As her anchor went down, blue lights burned from the Thistie's bow and stern, and a skyrocket was sent up. The people on the Mohican responded with three cheers. On board the Mohican are besides three of the Messrs. Clark. J. B. Hilliard, W. B. Chaimers, Dr. James Donald, George A. Ballentine, and R. W. Cummings. They have come to see the yacht races.

To-day's stock market, if it reflected anything, indicated a decided change in the spec

ulative temper. The turn from a declining into an advancing market has been so sudden that the street as a whole is at a loss to ac-count for it. It certainly does not appreciate how radically the situation has changed, because it does not know how bad a condition of affairs has existed in some quarters of late. Nor is it yet cognizant of the radical improvement that has taken place in the same quarters. The most important change that has been entirely effected has been in the affairs of the Oregon and Transcontinental Company. The remedy in its case was so simple and so near at hand that it seems almost surprising that it was not administered before. The affairs of the company seem likely to be further im-proved by the active part that it is pretty ertain to take in the management of the company in which it is now most largely interested. that is, the Northern Pacific. There is a good deal of talk of a compromise between the two parties who are contending for the control of the Northern Pacific Company, but as yet no compromise is in sight. Why the people who are attempting to reorganize the management of the company should entertain a proposition of the company should entertain a proposition to compromise is hardly clear, in view of the position they have attained in regard to the approaching election. One thing is very certain, that a compromise which retains in the Northern Paolife Board the element that has been persistently antagonistic to its fellow stockholder, the Oregon and Transcontinental Company, will be regarded as a virtual surrender on the part of the Oregon and Transcontinental Company and its aliles. Moreover, a compromise with what nearly every one regards as an unscrupulous element in the present Board will not inspire confidence in those who make it.

Of the important change that has taken place in the affairs of the Baltimore and Ohio Railroad the street knows even less than it that the continents.

transaction. The only evidence the street has that the auxiliary properties of the Baltimore and Ohlo are for sale is the fact that the express business has been sold. That the others will be separated from the railroad company and disposed of there is hardly any question. The result to be obtained by these transactions is the financial rehabilitation of the railroad property, and the placing of it in perfect accord with competing and connecting lines. This does not necessarily involve a radical change in ownership, but it does involve a decided change in the management and the policy of the concern, both of which have been made necessary by Mr. Robert Garrett's incompetency.

The reduction in cable rates by the Commercial Cable Company this morning had little if any effect upon prices. The reason for the reduction is probably clearer to those who have engaged in competitive telegraph enterprises than to the ordinary observer. Experience had demonstrated that as soon as the idea becomes prevalent that an opposition concern is likely to be absorbed by the Western Union Company its customers forsake it. The roduction is therefore a balt to tempt them back.

The only unfavorable development to-day was the advance in the Bank of England rate of discount. Shrewd financiers here say that the intention of this movement is to check further drafts upon the Bank's stock of gold, which seem likely to be made in view of the small purchases of bonds by the Trensury Department vosterday, but more especially because of the failure of the Government to get into circulation the amount of interest mousy which it has professed a willingness to disburse. Beyond question the 3º cent. rebate of interest required by the Government to get into circulation the amount of interest mousy which it has professed a willingness to disburse. The aggressive policy of the United States Express Company has resulted in some comparatively heavy trading in the company's stock at advancing prices. The dominant element in the concern makes no effort to conceal its ambition to develop it in every respect, with the view of making it rank with the most successful companies in the same line of business.

The part Mr. Henry Villard has taken in negotiating the sale to foreign dealers of the Oregon Railway and Navigation bonds and stock for the Oregon and Transcontinental Company has revived reports that he is likely to resume his position in the management of the properties that he was instrumental in developing. If Mr. Villard has any ambition in that direction he has given no indication of it, nor have any efforts been made to induce him to take an active interest in them again. So far as is known, Mr. Villard's present occupation in the financial world is that of a negotiator, a position for which he is admirably qualified and in which he appears to be meeting with gratifying success. His part in the transaction referred to was simply that of a purchasing agent for his Berlin cilents, and he has not, as Wall street has been led to believe, interested himself to effect a compromise between the opposing Northern Pacific stockholders.

A Chinese Complexion,

When observed in one of the Canoasian race, is indicative of bile in the blood. Who would be yellow when he or she can exhibit the hue of health on cheek and brow through the aid of Hostetter's Stomach Bitters, an anagonist at whose onset liver complaint takes refuge in flight? Fur upon the tongue, nauses, sick besdeebe, pains under the right ribs and shoulder blade, an up-pleasantly odorous breath, are remediable with this be-nign atterative, which does not, like a posent cathartic, nign alterative, which does not, like a posent catharton, dreach the intestines, or, like the mercurial preparations, contaminate the blood. Not only the liver, but the stomach and bowels are aroused, toned, and regulated by this fine family medicing which has won the confidence of the respectable classes, not by startling assertions on its behalf, but by the consistency of the claims made for it with its performance in every instance when tested. stance when tested.

Business Astices. Always cool weather at the furf Hotel, Fire Island Seach, L. I. Pure sea breezes, sailing, fishing, bathing unequalled. Paradise for children.
